

INDIA-RUBBER TUBE COCK AND WATER-CLOSET, SHOP SHUTTER SHOE AND FASTENER, JOINT, &c.

On the 12th inst. I received your letter, noticed to that useful publication, THE BUILDERS, an article
appearing on the 10th inst. in reference to the "Cooks of your Palmetto West Coast." I with much pleasure bear testi-
mony to the simplicity and efficiency of your Palmetto Cooks, and should have sent to you before, but
the Cooks being much exposed, I was anxious to see if they were affected by frost, and the result has
been satisfactory. I am at liberty to make any use you think proper of this letter, my object
being to speak well of that which has answered my purpose - I am, Sir, yours obediently,
G. M. W. H. G. M. W. H.

From the Rev. J. D. Frost, B.D., Minister of St. Paul's, Winchester Hill.

Windsor, N.H., October 22nd, 1946

DEAR SIR.—After one winter's experience at your stove in St Paul's chapel I feel bound
in saying that it may fairly claim a place in the first rank among the inventions for warm
observers. Before adopting your stove, made entirely of brick, both as to the different kinds
stoves in use, and the various systems which I witnessed; but I really have no
practical objection to allege against your stove. I believe it to be more powerful than any
other stove of the same dimensions and expense; and it is far more agreeable in a church than
any other such which I am acquainted with. I remain, Sir, your truly,
J. H. PEARCE.

THE STOVE MAY BE SEEN IN OPERATION AT THE MAN
MEMBER HITCHCOCK

HELENA HITCHCOCK AND ROBERTSON, ST. PAUL'S CHURCHYARD

From the Rev. Dr. VIVIAN, Minister of St. Paul's, and Rector of St. Peter-in-Poor.

Now, I have no hesitation in bearing testimony to the excellence of your stove: in producing an equal degree of warmth over the whole of a large building, and in promoting ventilation, I consider three warblers. They are also the most economical I have ever met with. My church, which was notoriously one of the coldest in the metropolis, has, since the introduction of your stove (one of the largest size, about twelve months ago, became perfectly warm and comfortable.

I am, Sir, your faithful and much obliged servant.

J. W. VIVIAN, D.D.
